SPECIFICATION / INSTALLATION INSTRUCTIONS

3" x 4" RECYCLED PLASTIC BENCH WITH BACK

MODEL NO.

1113

SITE FURNISHINGS

INSTALLATION INSTRUCTIONS:

1. To install planks to the frame, line up pre-drilled starter holes in planks with slotted holes in 4" Formed Flat Bar strap.
2. Insert the 3/8" spacers provided, between the planks, to insure even spacing.
3. Install the self tapping screws through the frame into the pre-drilled starter holes in planks (Some adjustment may be required).
4. Repeat steps (2 & 3) for backrest planks.

INSTALLING RECYCLED PLASTIC PLANKS:

It is important that when installing the recycled plastic planks that you **DO NOT** tighten any screws past finger tight when assembling. This is particularly important when assembling the ADA option on tables. After assembly is complete and all hardware is installed finger tight, then go back and **SNUG** all screws to complete assembly. It is important to watch for movement on the recycled plastic when doing the final tightening sequence. Planks may become out of alignment if you over-tighten hardware.

ITEM	MATERIAL LIST:	QTY	QTY	QTY
