Recommended Soccer Net installation:

(Soccer nets are designed to fit tight around the back-outside of the net supports)

1. Stretch the top of the net along the front-top horizontal crossbar and down both front vertical post and secure with Velcro ties **Model 8373**.
2. Pull and stretch the net along the outside of the net supports. For portable net supports use the Velcro ties to secure the net to the bottom of the net supports. For permanent net supports, use our steel net stakes **Model 8368** to anchor the bottom of the net to the ground.
3. Use the Velcro ties to secure the bottom of the net to the bottom horizontal spreader pipe on portable models, or use the steel net stakes on the permanent models.
